

# **Robin Hood Primary School**

## **Year 3 Newsletter – Friday 3<sup>rd</sup> May 2024**

### **Home Learning:**

This week the children have received home learning involving fractions and using our 'm' spelling sound with the code: 'mb'. There are also some comprehension questions to develop their VIPER skills. We want Home Learning to be a positive experience. So, if it's more appropriate to discuss the questions with your child, and you write what they say then please do. With regards to spellings, they can just write the word.

### **Art and DT Afternoon:**

Next Thursday, will be an Art afternoon. It will be a celebration of the local artist David Hockney who is known for his bright coloured landscapes. Feel free to bring in coloured pencils from home.

In preparation for our DT Afternoon, please could we ask for cereal boxes.

### **English:**

Next week, we will write and publish our Iron Man narrative, using powerful adjectives to describe the setting and fronted adverbials for time, manner and place.

### **Maths:**

Next week, we will start our unit on Mass and Capacity We will measure in millilitres and litres and convert between the two. We will compare and find equivalent measurements.

### **Science:**

Next week, we will learn about what makes a stronger magnet. The children will design their own experiment to work out which kind of magnets and the strongest and why.
