

Robin Hood Primary School

Whole School Information – Friday 13th May 2022

KS2 SATS

Firstly, we would like to let you know that the children have been incredible this week: their attitude towards their SATs and their resilience and determination has been a credit to all of the children. Every single member of staff in school is beyond proud of each and every one of them.

The children were served breakfast each morning before their SATs and were also invited in this morning for bacon and veggie sausage sandwiches (as well as the usual cereal and toast) for all of their hard work this week. This was then followed by their 'History Workshop Day' delivered by 'The History Van' company. They spent the day discovering lots of Ancient Greek invention and the legacy they left behind – they have had a super day!

BRITISH SCIENCE WEEK

British Science Week will take place from 27th June to 1st July. Across all educational age groups, from Early Years to KS2, the whole school will be taking part in exciting workshops, completing some hands-on fun practical experiments in their classrooms throughout the week.

We would appreciate any parents/ carers who would be interested in volunteering to speak to some of our children across this week. You may work within the healthcare sector such as dentistry, optical, paramedic or nursing, or may currently be working within the emergency services sector as a firefighter, police officer or from a military background. Alternatively, you may be a keen gardener or have an agricultural background.

If this is something you would be interested in, please could you contact Miss Mills at missmills@robinhoodapps.co.uk

BABY NEWS

We are delighted to share with you that Mrs Murphy and Miss Quirke are both pregnant and expecting new arrivals in the Autumn Term. Congratulations to them both.

MULTISENSORY DECISION-MAKING STUDY

The University of Leeds are currently seeking to recruit children ages 5-12 for an online study investigating how we make decisions using our visual and auditory senses.

The experiment involves a simple perceptual decision-making task, requiring a computer/laptop screen that presents different images and headphones/a speaker presenting different sounds. If you wish to participate, please follow the URL below, this will last approximately 20 - 25 minutes. <https://research.sc/participant/login/dynamic/A465DDA4-88A7-4728-96A8-F939C116A415>

For your online participation, *you will* **receive a £10 Amazon Voucher.**

PTA NEWS

*** SAVE THE DATE! ***

JOIN US AT THE GREAT GET TOGETHER 2022

Friday 24th June, 3pm to 5pm at Robin Hood Primary School.

The late Jo Cox MP inspired annual celebrations to unite communities, are back for 2022.

We bring you The Robin Hood Primary School Great Get Together!

(<https://www.greatgettogether.org/>)

The pandemic forced us apart these last few years, but we can finally come together as a community for hopefully another sun filled afternoon of fun activities, refreshments and entertainment! Full details to follow.

All funds raised will help support the school improve resources and experiences provided for the whole school.

To make the event a success, we need lots of support from parents/carers in various roles. Any time given will be a massive help, so please consider looking at the volunteer roles and sign up via PTA-Events or e-mail us at robinhoodprimarypta@gmail.com. Roles include morning set up, afternoon set up, post event tidying up. Manning stalls in 30 min slots; chocolate tombola, teddy tombola, bottle tombola, cafe and bar. Money taking in 30 min slots for; donkey rides and face painting.

Thank you in advance!

The PTA
